THE STANDARDS WE USE

We practice the following international standards to measure our products:

- Length & Width (in cm). As per tiles market standard, size is written differently. i.e. 30(H) X 60(W). 60(W) X 120(H).
- Water absorption
- Modulus of Rupture (MOR)
- Resistance to chemicals

Sustainable Manufacturing Practices

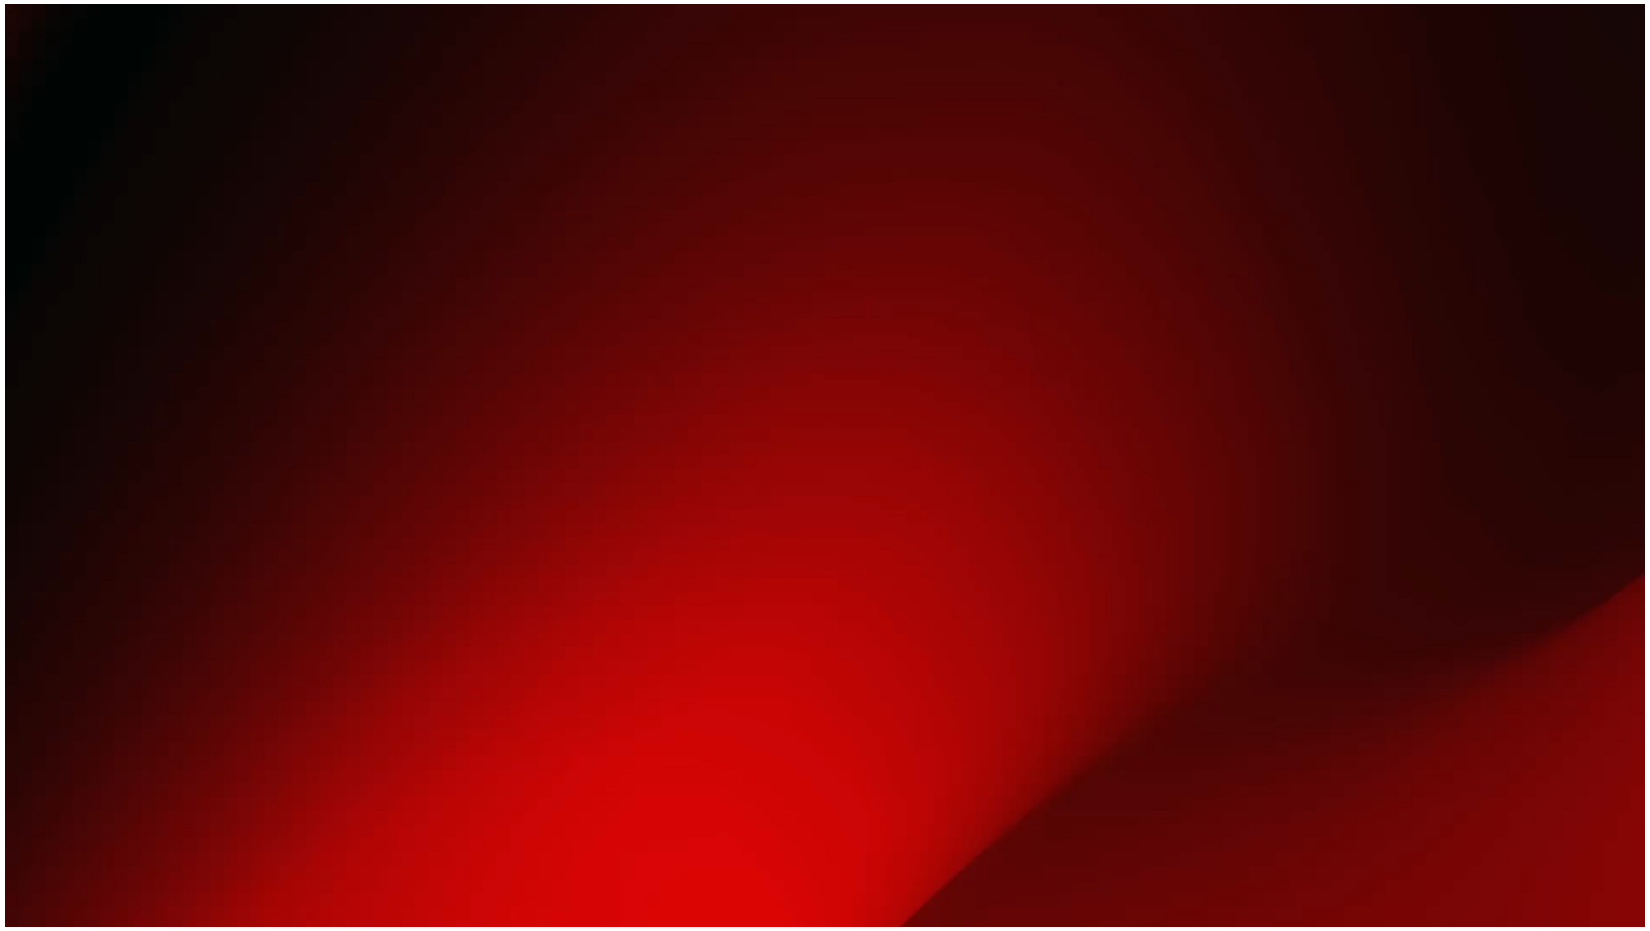

The video will highlight six key sustainability points of our factory-

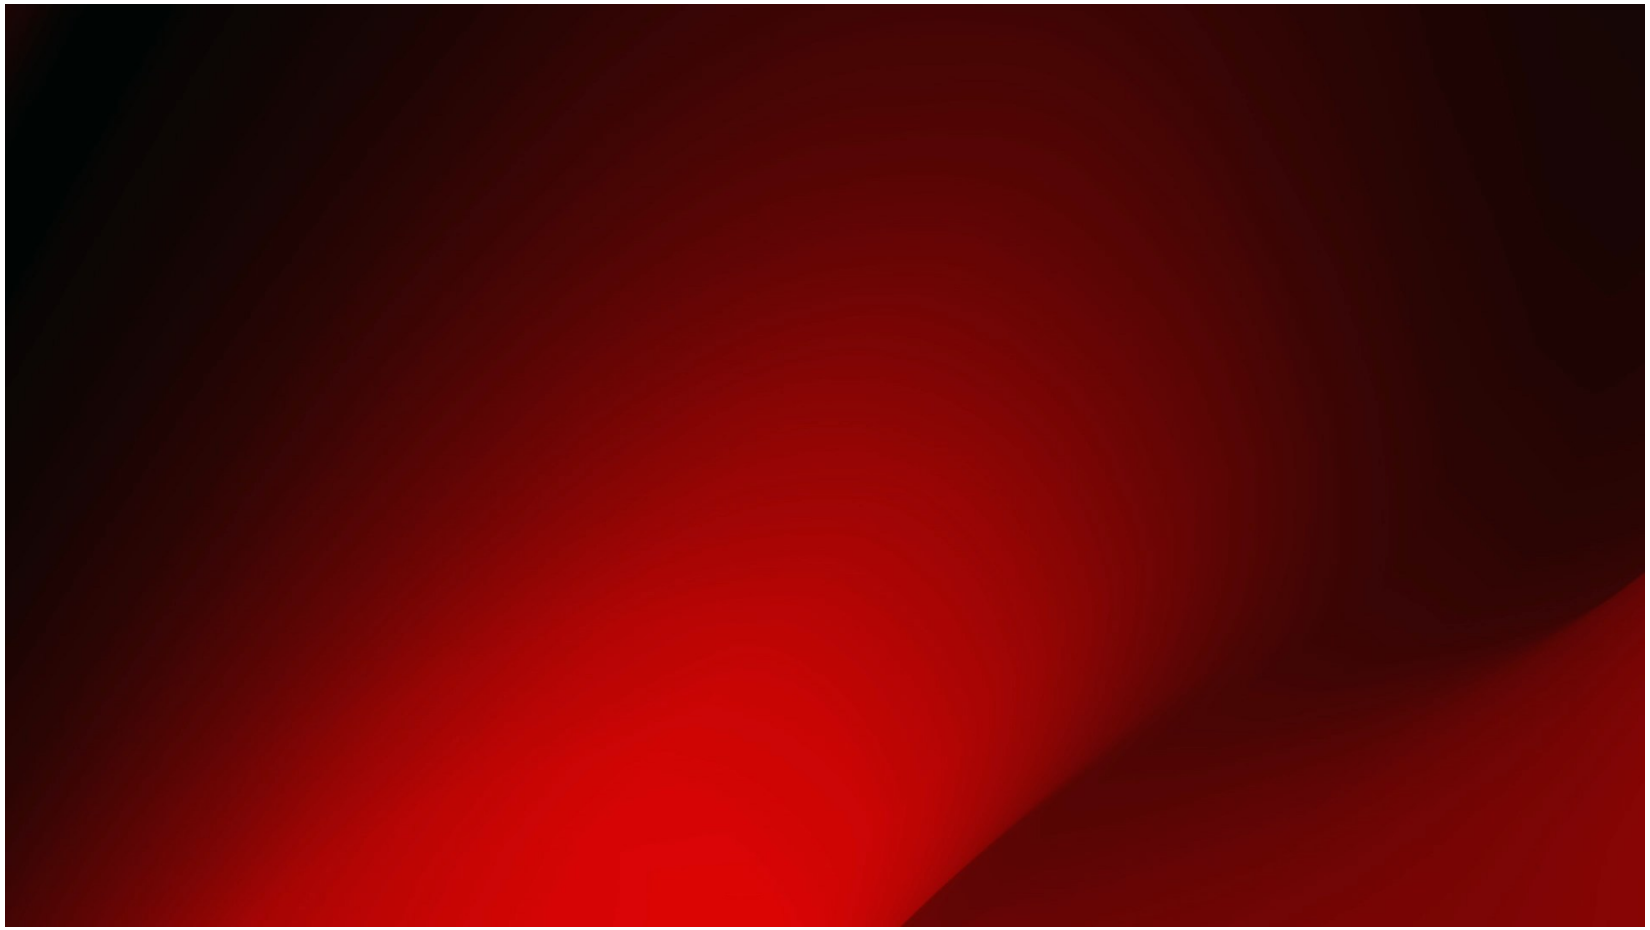

-Use surface water
-No black smoke
-Smart heat control
-Dust-free workplace
-Use solar energy
-Natural light design

You can also develop communication based on these six sustainability points and help convey them clearly to the audience.

New sustainable product– Slim Tiles

New sustainable product– Heatproof Tiles

Slim Tiles

The Promise of Effortless Beauty
Large-format tiles used to be difficult.
Heavy to lift.
Hard to fix.
Risk of falling.
Not anymore.
Refining your space has never been
this light,
this strong,
this simple.
Contributes to LEED Credits & Green Certification.
How?
Reduced Dead Load.
Less Structural Material Needed.
Lowers Embodied Carbon & Emissions.
Supports Material & Innovation Credits.

Our Vision

Only vision is to establish Fresh as a brand that stands for superior quality and strong sustainability values. We truly believe that when quality and sustainability come together, Fresh tiles naturally become the right choice. This belief is what we now want to clearly communicate to our audience. Going forward, this will be our core focus – to make people understand that choosing Fresh tiles means choosing better quality, responsible manufacturing, and a more sustainable future.
